

Claton Butcher - BIO

Claton Butcher is a Pinnacle Forum Partner and a Publishing Entrepreneur.

After forging successful careers in retail, audiobook narration, and as a worship leader/music pastor, God led him to launch an audiobook publishing company, Two Words Publishing, which publishes exclusively Christian titles.

Later he founded Black Hills Audiobooks and Vision Audiobooks.

Because of his companies' stand on biblical values, some titles have "run afoul" of our culture's hastily embraced and divisive "values". As a result of books with a Christian worldview being censored by Amazon and other trends in publishing and Big Tech in general, he is now spearheading the launch of CrossCurrent Digital, a Big-Tech-free audiobook and e-book sales platform for Christian and conservative books and digital content.
