LUCY ZIELINSKI
MANAGING PARTNER

Lucy Zielinski specializes in helping health systems and medical groups achieve top financial and operational performance. She achieves this optimization through physician-hospital alignment, which includes clinically integrated networks, strategic planning, medical practice transformation, coding and revenue cycle improvement, and physician leadership training. With more than 25 years of experience, Lucy believes that employee development is a company's greatest investment.

Prior to co-founding Lumina Health Partners, Lucy held positions as vice president for GE Healthcare Partners and founder/president of a practice management consultancy.

Lucy is an industry-renowned thought leader who has been featured in numerous healthcare industry publications. Her expertise is in physician-hospital strategies, population health management, revenue cycle and benchmarking, Quality Payment Programs, and leadership programs. She is a frequent presenter at regional and national healthcare conferences for physicians, practice administrators, and finance executives.
