

Karsten Solheim – Bio 2023

Karsten Solheim, a distinguished figure in both the business and technology sectors, has left an indelible mark on various industries throughout his illustrious career. Born with a keen intellect and an entrepreneurial spirit, Solheim has demonstrated a remarkable ability to innovate and lead across different domains.

Solheim's journey began at IBM, where he held various titles from September 1961 to June 1973. During his tenure, he contributed significantly to the tech giant's endeavors, showcasing his prowess in the rapidly evolving field of computer science.

In 1974, Solheim transitioned to the Platform Ministry at Moody Institute of Science in Whittier, California. His dedication to the institution exemplified his commitment not only to technological advancements but also to values rooted in biblical studies.

The year 1975 marked a pivotal moment in Solheim's career when he joined Karsten Manufacturing Corporation. Over the next three decades, he played a vital role in the company's growth and success. As a vice president, Solheim contributed to the corporation's strategic direction and operational excellence, leaving an enduring legacy.

Post his retirement in August 2003, Solheim continued to contribute to the business landscape. He served as the CEO of Teachers Pal Inc. from August 1994 to August 2008, where his leadership skills and business acumen continued to grow. Under his guidance, Teachers Pal Inc. changed its technological landscape re-emerging as Skoodat LLC where he became a manager from November 2008 to 2013. Through this success, he recognized the opportunity for his role in the founding team of SKUID from 2013 to 2019 highlighted his continued commitment to innovation and startup ventures.

Education has been a cornerstone of Solheim's journey, reflecting his diverse interests and expertise. He pursued studies in Bible and Biblical Studies at Moody Bible Institute in Chicago from 1973 to 1974. His academic pursuits also led him to the Systems Research Institute in New York City, where he delved into Computer Science in 1966. Prior to this, Solheim earned a degree in Electrical Engineering

and Mathematics from the University of Wyoming, where he honed his technical skills from 1956 to 1961. His academic journey commenced at Clarkson College of Technology from 1955 to 1956.

Beyond his professional and educational achievements, Karsten Solheim's affiliation with Pinnacle Forum Partners since January 1, 2012, is a testament to his commitment to community and collaboration. His impact on various organizations and industries underscores a lifetime dedicated to the pursuit of excellence, innovation, and a blend of technological prowess with ethical values.
